

To Our Valued Patient-

Creative Smiles Dentistry is proud to announce that we have moved to our new state of the art dental facility to better serve our valued patients. Dr. Thornhill and Dr. Rodgers are positive that you will comfortably enjoy this new facility as we care for your dental needs. Our highly trained and friendly dental team will care for you in a "spa-like" atmosphere with ultra-comfortable dental chairs for your relaxation, stereo headphones, and TV's in every room to enhance your dental experience.

Do you hide your smile because of spaces from missing teeth, or from loose partials or dentures. Drs. Thornhill and Rodgers are highly trained in implant dentistry, helping you to smile freely again. Our full care dental office is here to serve all of your cosmetic and family dental needs. And with our "child friendly" dental team, you can count on your children having a great experience at the dentist too. We use the latest in dental technology, including laser dentistry and digital x-rays utilizing 70% less radiation. If you have a busy schedule, we offer flexible appointments before and after school or work, and even on Saturdays. Please call to schedule an appointment today.

Straighten Your Teeth

Looking for an alternative to metal braces? Come in for a free Invisalign consultation. Invisalign is the invisible way to straighten your teeth. Schedule an appointment to see if Invisalign is right for you. Our office accepts most major credit cards, and we are currently offering interest free payment plans O.A.C.

Whitening

We are also featuring ZOOM 2, a professional in-office whitening system which is the newest and best system on the market for teeth whitening. Bring in this letter, and receive a discount of \$50 off our regular fee. Please call us today to schedule your next appointment. We hope to see you soon.

Best Regards,

Creative Smiles Dentistry
Dr. Thornhill & Dr. Rodgers
