Learn to Smile Again!

Invisalign Day

Dr Zahra Hakim and the team would like to invite you and a guest to discover how Invisalign can change your smile with clear removable aligners as an alternative to braces.

This free consultation will include

- . Treatment consultation
- . Photos and Evaluation of your smile
- . Complementary refreshments will be served

What is Invisalign?

Invisalign is the **CLEAR** way to straighten teeth. Using a series of custom-made, clear aligners, your teeth are straightened before your eyes. Since the clear aligners are removable, you can maintain good oral hygiene which can prevent tooth decay, and periodontal disease caused by traditional braces.
