

# Amenities / *Fees & Insurance*

## ► VIP Amenities

As part of our dedication to your comfort and relaxation, we have created an office that is as inviting as it is advanced. Our touch is gentle, our care compassionate and our office amenities entertaining and soothing. We think that every member of your family will enjoy visits with us.

We realize that life is busy so we want you to make the most of your visits with us. That's why we offer movie glasses on which you can choose to enjoy music or a movie that feels as if it is being watched on a large screen. It's a great way to catch up on your favorite movies or music.

It's all part of our commitment to you.

## ► Fees and Insurance

We think you deserve the best. While we accept most insurance plans, we want all our guests to experience the kind of dentistry that we, ourselves, demand. And that may mean that we recommend procedures that are not covered by your insurance company. Of course, we want you to receive the maximum benefits from your insurance and will file any insurance claims for you. We also offer several payment methods to make sure that your dentistry is affordable: You may conveniently pay with your credit card or with Care Credit's **0% financing**. If you have any questions about your payment options, feel free to give us a call.
